KEY PROJECTS

PostGram – Instagram Clone [Live Demo / GitHub]

Tech Stack: React.js, Appwrite, JavaScript, Tailwind CSS

- Engineered a fully functional social media web application featuring secure user signup, login, and robust session persistence.
- Implemented core features allowing users to seamlessly create, publish, and manage rich-media image posts with custom titles.
- Designed a fluid, mobile-first responsive user interface from scratch, minimizing page-load overhead and ensuring cross-browser styling.
- Integrated Appwrite as a Backend-as-a-Service (BaaS) to efficiently handle data models, user documents, and user asset storage pipelines.

Personal Portfolio Website

[Live Demo / GitHub]

Tech Stack: React.js, Tailwind CSS, JavaScript

- Designed and deployed a modern, lightweight, single-page web app to showcase interactive technical projects and frontend core proficiencies.
- Utilized a component-based architecture to guarantee high modularity, structured reusability, and clean code maintainability.
- Optimized client-side styling assets and UI performance metrics to achieve rapid rendering speeds across all active viewport dimensions.
